

# AHMED NAZEEL

PROFESSIONAL FRONT-END WEB DEVELOPER

---

TO WHOM IT MAY CONCERN,

I am Ahmed Waleed Nazeel, My basic education is philosophical studies at the Faculty of Arts, Ain Shams University (student), I decided to learn philosophy for raising self-awareness and to benefit the mind, then I learned, and I am learning philosophy, programming, especially web programming, especially front-end this gives me great self-confidence that I have a great ability to learn two things in one period of time.

## LEARNING STAGES

1- At first I was confused, then I found out the road map by searching on Google, I started learning the basics from YouTube channels especially Elzero web school, and for practice codewithsadee and others, this was the first step I learned things related to front-end (HTML, CSS, BOOTSTRAP, JAVASCRIPT and the most beautiful technology or framework REACT.JS and REDUX, I have knowledge in NEXT.JS which is a framework based on REACT.JS

2- I got the course from Coursera and the teacher who taught us was from JOHNS HOPKINS UNIVERSITY it was an exciting and informative course, and I spent in my classroom for five weeks, I learned HTML, CSS, Javascript And Bootstrap And Applied To Projects THE CERTIFICATE

3- I graduated from the scholarship provided by the Ministry of Communications in cooperation with the Udacity platform, it was a very wonderful grant that added a lot of information to my THE CERTIFICATE

## NEXT GOALS

- 1- learning Back-end
- 2- learning artificial intelligence AI
